

GHMDD Lakshan

B.Sc. (Hons) in Information Technology

174/G, Sri Sarana thissa mawatha Kahathuduwa, Polgasowita, Sri Lanka 0715701413, 0114901374 | dasun.lakshan999@gmail.com

Areas of Expertise

- C#, ASP.NET MVC, WebAPI, ASP, Net Core
- SQL Server, Dapper
- Entity Framework, LINQ
- JavaScript, jQuery, Angular 5, 6, 7, 9, React.js
- Bootstrap 4, HTML, CSS, D, XdataGrid
- Scrum Practice, SOLID Principle, Unit Testing, xUnit, MSTest

Education

- **Graduate:** Bachelor of Science (B.Sc. – Information Technology)
Faculty of Computing – General Sir John Kotelawala Defiance University (2013-2017)
Reg. NO – IT/3/241
GPA-3.4
- **School attended:** Piliyandala Central College
- **G.C.E. (A/L)** Examination 2011 (Index NO: 7092946)
Physics - S, Chemistry - C, Combined Mathematics – C
- **G.C.E. (O/L)** Examination 2007 (Index NO: 70394849) 8 A grades (Mathematics, Science, etc.)
2 B grades (Science & Development Studies)

Personal Details

- Name : Galpoththa Hewawasam mudalige Dasun Lakshan
- Address : 174/G, Sri Sarana thissa mawatha, Kahathuduwa, Polgasowita
- DOB : 06th of June, 1991
- Sex : Male
- Marital Status : Single
- Nationality : Sri Lankan
- Contacts : 0715701413 (Mobile)
0114901374 (Land)

Work Experience

Professional Experience:4+ Years

Antler IT Solutions (May 2019 -Present) - Software Engineer

Project Involved

HR Management system(Avior HRM)

Technologies - C#.net, MVC 5, **Angular 6**, ajax, , LINQ, SQL Server 2019, WebApi

Responsibilities

- Developed and designed critical modules
- Planning, Design and Implementation of software applications, including UI design and writing code according to given specifications
- Come up with own innovative ideas and find solutions to problems
- Gave support to resolve tasks to the team
- Help and gave advise to the interns to achieve their target
- Identifying areas for modification in existing programs and subsequently developing these modifications
- working with deadlines while adhering to all web and coding standards

ERP Solution (Avior ERP)

Technologies - C# ASP.NET Core 3.0, MVC 5, **React js**,LINQ, SQL Server 2019, WebApi,Dxdatagrid

Responsibilities

- Design and build web applications using the latest technologies and best practices.
- Produce high quality,clear and maintainable code,
- Maintained a system and keeping track of software developments and optimizing the code.
- worked with the rest of the team to defined ,design and develop new feature
- Did the react js Session to my team members.
- Give my knowledge and share my knowledge with other team members
- Report generation using Dxdatagrid and Crystal report
- Troubleshoot and debug application
- Working closely with other developers, business and systems analysts
- Member of agile team environment working across time zones
- Planing and estimation for given task
- working with deadlines while adhering to all web and coding standards
- Guide Junior developers

Fleet Mangment Solution(Avior Fleet)

Technologies - C#.net,Asp.net Core,**Angular 9**, LINQ, SQL Server 2019, WebApi,Dxdatagrid,Dapper

Responsibilities

- Developed ,maintain and extend software component based on system architecture and design
- Give Asp.net core knowledge to team members
- Modifying software to fix errors, improve its performance, or upgrade interfaces.
- Writing and implementing efficient code
- Accountable for timely and quality deliverables
- Find and fixes bugs in a timely manner
- write system modules either from scratch or by amending existing system
- working with deadlines while adhering to all web and coding standards
- Guide Junior developers

Sihas Application

Technologies - Asp.net Core,**Angular 9**, LINQ, SQL Server 2019, WebApi,Dxdatagrid,Dapper

Responsibilities

- Design the database
- Design and build web application using the latest technologies and best practices.
- UI Development,(Responsive)
- Deployment
- Work collaboratively and participate conversation with clients.
- Clean,readable and easy maintainable code
- Manged priorities on different deliverables
- Find and fixes bugs in a timely manner
- worked independently with minimum supervision as well as contribute to team efforts
- Keep the coding standards and working with deadlines while adhering to all web and coding standards
- Guide Junior developers

Paragon Software Lanka (Pvt) Ltd (November 2017 -April 2019)

Software Engineer

Project Involved

1.POS and inventory Management System

Technologies - C#.net, MVC 5, jQuery, ajax, Entity Framework 6, LINQ, SQL Server 2017, WebApi

Responsibilities

- Developed and designed critical software modules
- Testing sample data-sets to check that the program works as intended
- Find and fixes bugs in a timely manner
- worked independently with minimum supervision as well as contribute to team efforts
- write system modules either from scratch or by amending existing system
- Collaborate with the technical team and management
- Developed high- clean code in an agile development

2.Restaurant Management System

Technologies - C#.net, MVC 5, jQuery, ajax, Entity Framework 6(Code First), LINQ, SQL Server 2017, WebApi

Responsibilities

- Maintained a system for documenting requirements and keeping track of software developments.
- produce scalable and reusable code with quick deliveries
- Identifies technical risk and issues associated with development activities
- Troubleshoot and test code/databases to ensure strong optimization and functionality
- Collaborate with cross-functional teams to design and deliver new features
- Improve application performance and fixing issue
- Train and guide junior developers

Project Involved

1. BIO PMS (Cloud Based Employee Management System)

BIO PMS also a cloud-based web application. This BIO PMS mainly tracking the finger print machine data and update the system. In this system can track many locations finger print machines data and get all data to cloud and update the system. This application can apply leaves, add missing times, add missing attendance, check total working hours and much more in with working environment.

Technologies - .net 4.5, C#.net, MVC 5, jQuery, JavaScript, AngularJS, ajax, Entity Framework 6, SQL Server 2012

Responsibilities

- Learn new technologies as Trainee Developer
- Follow the senior developer's coding standards
- Test code to ensure the quality standards, usability and reliability.
- Continuously discover, evaluate, document and implement new technologies to maximize quality and efficiency

2. Task Management System

Technologies - C#.net, MVC 5, jQuery, AngularJS, ajax, Entity Framework 6, SQL Server 2012, WebApi

Responsibilities –

- Designing the relevant modules.
- Implement new features and maintenance of all stages of the product life-cycle
- Developing the system.
- Find and fixes bugs in a timely manner

3. Payroll Management System

Technologies - C#.net, MVC 5, jQuery, AngularJS, ajax, Entity Framework 6, LINQ, SQL Server 2012, WebApi

Responsibilities

- Designing the relevant modules.
- Developing the system.
- Troubleshooting issue
- Involved in documentation
- Work with minimum supervision
- Maintain Code integrity and organization
